

**HOW  
MUCH  
IS YOUR  
DUST  
WORTH?**

**FILTRARTECH**

HIGH-VALUE INDUSTRIAL DUST COLLECTION

THANKS TO **FILTRARTECH**, THE MOST INNOVATIVE FULLY INTEGRATED MANUFACTURER OF DUST CONTROL AND COLLECTION EQUIPMENT, DUST CAN BECOME A VALUABLE AND PRODUCTIVE ASSET FOR HEAVY INDUSTRIES DURING ALL STAGES OF HANDLING AND PRODUCTION.

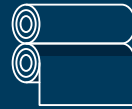

Aluminum  
fabrication

Mining  
processing

Concrete and  
cement  
production

Pulp and paper  
production

Other heavy  
industries

# BELT RETURN CLEANER

The **ONLY** patented dust  
valorization equipment in  
the industry for conveyor belts

## HIGH PERFORMANCE, LOW COST

- More than 90% of material recovered and reused
- Virtually eliminates airborne dust particles due to operations
- Completely eliminates shutdowns required for cleaning and maintenance
- Payback within a few months, sometimes after the very first use

## APPLICATIONS

All bulk material handling applications with conveyor belts

# 4 WAYS TO VALORIZE DUST LIKE NEVER BEFORE

## 1 • DUST COLLECTORS

- Perfectly adapted to clients' specific needs
- Reduces harmful releases by 99%
- Quickest delivery in the industry
- Made to last thanks to thicker steel
- Affordable standard spare parts

## 2 • VACUUMS

- Can replace vacuum trucks in most cases for substantial savings
- Exceptional versatility—one equipment instead of several
- Extra-rugged construction
- Best resale value in the industry even after 10 years

## 3 • VACUUM TRUCKS

- Optimized filtration—up to 50% superior to competition
- Hybrid diesel/electricity system for lower operating cost
- Ultralight tank for added capacity
- Nose cancelling system for quietest use possible
- Universal platform for easy transfer from one truck to another

## 4 • PNEUMATIC CONVEYING

- Quick and efficient material transfer at a much lower cost
- Enables material recovery without any contamination
- Allows to centralize and manage 100% of recovered material for maximum valorization

# THE ONLY REAL SPECIALIST FOR DUST VALORIZATION IN HEAVY INDUSTRIES

- The only fully integrated manufacturer for **all dust collection and valorization technologies**
- All products are market driven, **based on industry specifications** and tested by clients
- **Constantly innovating** with unique products such as our patented belt cleaner
- High-performance, long-lasting products backed by the **strongest warranty in the industry**
- Highly efficient vacuuming for both **dry and wet materials**
- Large manufacturing capacity and **exceptional quality control** (including the Toyota Way)
- Great **flexibility** in specifications and manufacturing, **highly personalized service**
- Competitive prices: the **best value on the market**
